Summary

Software Engineer with 2 years of experience specializing in React and modern frontend development. Successfully transitioned from a non-CS background through self-driven learning and real-world project experience. Proficient in building responsive UIs and scalable web apps using JavaScript, React, and modern frameworks. Known for writing clean, maintainable code and quickly adapting to new technologies. Eager to contribute to impactful products and deepen full-stack development skills.

Skills

Languages	JavaScript (ES6+), Python
Frontend	React, Next.js, HTML5, Shadcn, Redux Toolkit, Zustand, Tailwind CSS
Backend	Node.js, Express.js, Fast Api
Databases	MongoDB
Dev Tools	Git & GitHub, Docker, REST APIs, Postman
Tools	Ms Word, Google Docs, Excel

Experience

Jul 2024 – Present **Software Engineer**, *Fourbrick Technologies*, Noida, India

- Independently developed and delivered the Superadmin portal, coordinating with App and backend teams to ensure seamless system integration and robust data management.
- Architected and led the frontend development of a Learning Management System (LMS) using React, Zustand, Shadcn/UI, and TanStack Query, while collaborating with product, design, and foreign clients to align features with user and business goals.
- Actively contributed to product roadmap discussions by translating client feedback and market trends into actionable feature enhancements.
- Led a small internal team in sprint planning and task delegation to ensure timely delivery of features and cross-functional alignment.
- Designed and implemented modular, maintainable UI components focused on accessibility, responsiveness, and intuitive user experience.
- Ensured high product quality by participating in QA processes, conducting internal testing, and iterating based on user feedback.
- Delivered client-ready features under tight deadlines, consistently meeting user needs and business objectives.

Jul 2023 – Jul 2024 **Web Developer**, *Whitevox*, Noida, India

- Designed and implemented responsive websites using HTML, CSS, and JavaScript for various marketing clients.
- Redesigned and redeveloped the company's website to deliver a modern, user-friendly look and feel.
- Participated in end-to-end development, from implementation to deployment.

Education

2024 – 2026 **MCA (Online)**, *IGNOU University*, New Delhi

2020 – 2023 **B.Sc. Hospitality & Hotel Administration**, *IHM Kufri*, Shimla, Himachal Pradesh
